

General Queries :

1. Is the date of submission a criterion for judgement? Would a faster submission be considered a tiebreaker or merit-judging criterion?
2. Is there a general format that needs to be followed for the report and documentation.
3. Clarification regarding testing conditions which needs to be fulfilled for a valid submission video + demonstration at IIT Kanpur -
 - (i) Will the physical demonstration be held in a closed space(without turbulence and external wind impact) or outdoors?
 - (ii) Lighting conditions, colour of the ground (background colour for camera)

Clarifications about the PS:

1. Task1:
 - a. How will our submissions be evaluated? What criteria would be used to break a tie?
2. Task2:
 - a. At what height would the camera be placed during the demonstration at IIT Kanpur?
 - b. Do we need to take our own camera for the final run? If a camera is provided, would we get time to calibrate?
 - c. Does the drone need to hover at a specified height?
 - d. Is there a specific type and dimension of Aruco tags to be used?
3. Task3:
 - a. Are the initial positions: *position0* and *position1* explicitly specified and will they be marked on the final run for initial placement.
